GOVERNMENT NAVIN COLLEGE, HASOUD

HASOUD, DISTRICT- JANJGIR CHAMPA, CHHATTISGARH

शासकीय नवीन महाविद्यालय हसौद, जिला - जांजगीर-चांपा (छ.ग.)

Affiliated to Shaheed Nandkumar Patel Vishwavidyalaya, Raigarh

Management of Solid waste:

Govt. Navin College-Hasoud has been providing continuous efforts for the welfare of the students as well as enforcing awareness among them regarding different facets of their surrounding as an essential part of their education. In the regard, the college is implementing management of the wastes resulting in emphasize towards the sanitation program. For waste management, the college is having a keen observation towards segregation of the wastes into two different dustbins after getting categorized as: Dry or Wet waste /Bio and Non-Biodegradable waste. The wastes are segregated accordingly the above mentioned types. After collection of the wastes after segregation, As sanitation is one of the most important element of human-life, our government is also implementing Sanitation Program and clean India Mission for spreading awareness among the inhabitants regarding their surrounding and environment towards cleanliness. The three R's are brought in implementation for waste –management; Reduce, Recycle and Reuse. This concept is changing the waste into important utilizable thing i.e., bio-manure .

Management of liquid wastes:

For the execution of liquid waste, proper arrangement has been made by the college. The chemicals of the Science-Lab are released into the sink which is attached to the pipes leading to the soaking-pit which is far away from the water resources such that the chemicals must not contaminate the water which can harm to the human-beings and cattle . This is declared as restricted area and the students are prohibited to reach the spot.

E-waste Management:

The term 'waste' itself stands for the things which are of no use. In the regard, many artists have given examples that everything can be utilized, the only thing is to have an optimistic view. Nekchand is awarded for the same after utilization of broken bangles, leaves etc. for making the 'Rock-Garden'- Chandigarh. In the lieu, Govt. Navin College-Hasoud is giving continuous efforts to give its contribution to save the environment from the damage with a proper action-plan. If possible, LED bulbs are repaired and reused. Besides this, inside the college premises a pit is made, in which, the LED bulbs which are unable to get repaired, they are buried there and it is a restricted area for the students to go.

Reuse of LED bulb after repairing promoting e- waste management
